

QuickDuct CAD

The BIM Solution

Building Information Modeling (BIM) has changed the design process and introduced new challenges to the HVAC detailer. Many hospitals, government, institutional, and educational customers are now requiring sheet metal shops to produce 3D duct drawings for their projects.

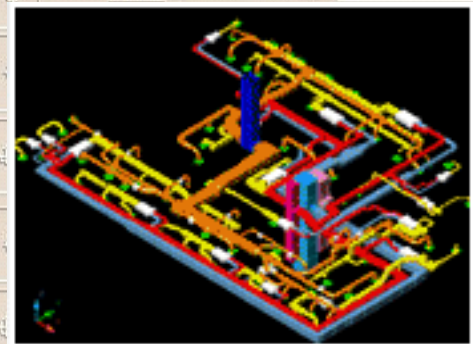

Today's 3D detailer now needs a robust computer, functional and easy-to-use software, and specialized training to meet BIM requirements quickly and accurately.

That's where ShopData comes in!

Our **QuickDuct CAD** software gives you the ability to:

- quickly and easily produce 3D drawings; and
- download the duct to your plasma cutter

You'll save time in detailing, produce more duct in less time, AND become BIM compliant! It all starts with our industry leading 3D detailing package.

Don't wait for BIM to change your world – get ready now, and guarantee your customers the most reliable BIM compliance possible with **QuickDuct CAD** from ShopData!
